Gentle Reminder

EXECUTIVE SUMMARY · SEED STAGE

The clinical-grade dementia care platform · 23 patented innovations · FDA SaMD pathway · $5M seed at $25M post-money

PROBLEM

55M+ people live with dementia globally, projected to reach 139M by 2050. Standard cognitive tests (MMSE, MoCA, ADAS-Cog) produce pass/fail feedback that triggers documented anxiety, agitation, and session abandonment in dementia patients. Caregivers lack real-time digital biomarkers. Clinicians lack longitudinal decline-tracking tools. Pharma trials for anti-amyloid therapies (Leqembi, Kisunla) lack scalable digital endpoints. No dementia-safe alternative exists.

SOLUTION

Gentle Reminder is a clinical-grade SaMD platform with **23 novel algorithmic innovations**. The core innovation — a **three-state positive-only feedback system** (CELEBRATED / GUIDED / SUPPORTED) — architecturally guarantees no negative feedback reaches the patient while preserving granular data for clinicians. Additional innovations: dementia-adapted spaced repetition, asymmetric adaptive difficulty, multimodal cognitive state classifier, 5-analyzer composite digital biomarker engine.

TRACTION

- 53,000+ LOC production
- 5 deployed applications
- 10 languages (RTL-aware)
- FHIR R4 EHR ready
- Apple Watch integrated
- 4 grants drafted

IP PORTFOLIO

- 23 USPTO provisionals
- 5 Tier 1 (foundational)
- 7 Tier 2 (strong claims)
- 11 Tier 3 (system)
- $22M-$57M est. value
- Trade secrets retained

FDA STATUS

- IEC 62304 ✓
- ISO 14971 FMEA ✓
- ISO 13485 QMS ✓
- 21 CFR Part 11 ✓
- STRIDE cybersec ✓
- 510(k) predicate: K201738

MARKET OPPORTUNITY

TAM: $186B (global dementia care) **SAM:** $23B (US digital therapeutics) **SOM (5yr):** $450M

BUSINESS MODEL

B2B Facility SaaS: $6,000/bed/year · **B2B2C DTx (post-510k):** $180/patient/month CPT-reimbursable · **Pharma licensing:** $2M-$10M/deal · **Payer value-based:** TBD.

Unit economics (Facility): ACV $60K · CAC $3K · LTV $180K · **LTV/CAC 60×**· Gross margin 82% · Annual churn 8%

REVENUE PROJECTIONS

Year	Facilities	Patients	ARR	Key Milestone
Y1	8	640	**$500K**	Seed close; FDA submission
Y2	32	2,560	**$3.8M**	510(k) clearance
Y3	110	8,800	**$14M**	Commercial launch + Series A
Y4	280	22,400	**$38M**	EBITDA positive
Y5	580	46,400	**$85M**	Strategic M&A or Series B

THE ASK

$5M seed at **$25M post-money**. 12-month runway to Series A. Uses: FDA 510(k) (25%), engineering (28%), pilots (12%), IP conversions (12%), sales (9%), ops (8%), clinical (5%).

TEAM

Christo Mac · Founder, CEO/COO · **Leo Kinsman** · CTO · **Chris Hamel** · CFO · **Jayla Patzer** · Nat. Dir., Clinic & Provider Partnerships. Recruiting clinical + tech advisory (UCSF, MGH, Mayo; Topol, Tullman, Slavitt targets).
